## 1. Theme & Character Selection

- **What anime, manga, video game, or character(s) do you want to feature?**
- **What aspects of the anime, manga, video game, or character(s) do you want to highlight?** (Pose, expression, outfit, iconic moment, symbols, etc.)
- **What Itasha Design Type do you like? (Check all that apply.)**
  - ☐ **Minimalist** | A clean, understated design that uses fewer elements while maintaining a cohesive and striking look across the car's livery.
  - ☐ **Maximalism** | A bold, overwhelming design packed with intricate details, creating a chaotic yet captivating visual statement across the livery.
  - ☐ **Design-Esque** | A livery inspired by anime, manga, or video games but crafted with subtlety—blending seamlessly into a stylish automotive design. To the casual eye, it's just a sleek car, but seasoned otaku will recognize the hidden details.
  - ☐ **Sponsor Galore** | A livery plastered with sponsor logos, mimicking the look of professional race cars—bold, dynamic, and performance-inspired.
  - ☐ **Character-Heavy** | A livery centered around a single character, making them the undeniable focal point of the design.

☐ **Anime/Manga/VG Themed** | A livery dedicated to a specific anime, manga, or video game, fully immersing the car in its world and aesthetic.

☐ **Individual Flavor** | A livery that reflects a person's unique passions and interests, blending elements from multiple animes, characters, or themes to create a one-of-a-kind design.
